

Cleaver-Brooks Boiler Systems PLUS Seminar

Presented by

Hosted by

& D.J. CONLEY 

The overall objective of this course is to build upon prior knowledge while emphasizing energy conservation, emissions reduction, system reliability, and safety. This includes a more in-depth understanding of boilers and how they can be successfully applied to various processes while saving energy through retrofitable options and control updates. The program extends out into the plant to include key components of the steam distribution and recovery piping, focusing on optimizing energy efficiency and safety.

Operations, Safety, Reliability & Efficiency

Dean Boiler, Inc. and D.J. Conley Associates are pleased to offer this two-day seminar to boiler operators, maintenance personnel and plant engineers.

Learn how to operate boilers and related accessories safely while optimizing reliability and efficiency

Learn how to MAXIMIZE system efficiency

Learn best practices for operations and maintenance

Review of the latest technologies for safety, energy efficiency and emissions reduction.

Tuesday-Wednesday, April 17-18, 2012

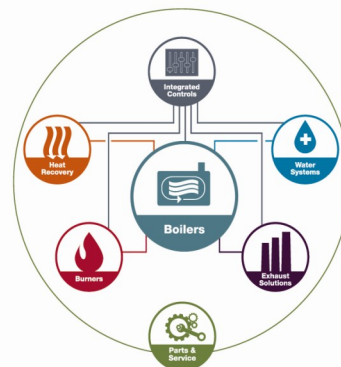

7:30–4:00

Includes course materials, (2) continental breakfasts, (2) lunches & Tuesday night dinner

Cost: \$525 each
